STORAGE CAGES & BASEMENT FIT OUT

Secure steel mesh storage cages and enclosures, ideal for basement storage in apartment complexes.

The Fast Store cages are custom made to your project measurements using 50x50x3 galvanised mesh and 25x25x1.6 SHS, with gates made to fit.

Above car park storage cages are ideal for situations where space is an issue. Our over bonnet storage solutions make use of otherwise unused space and transforms the area to a practical and secure storage option.

Basement, car park or multi-residential storage cages are fundamentals for keeping larger items secure.

**OUR SUBCONTRACTORS ARE ALREADY
INDUCTED ON YOUR SITE**

CUSTOM MADE TO FIT YOUR PROJECT REQUIREMENTS

QUALITY, DURABLE PRODUCT WORKMANSHIP
